

Mandatory Immunization Requirements for Incoming Preschool Students

Dear Parents and Guardians,

We thank you and your family for being our valued partners as we work together to continue advancing student success and wellbeing.

As part of the new student registration process, there is some important documentation that we will need before your student starts school. In order for your preschooler to be admitted on the first day of school, they **MUST** have one of the following immunization documents on record:

- Written proof of immunization from your health care provider
- Signed non-medical exemption from CDPHE
- Medical exemption from CDPHE signed by your physician
- Proof of immunization submitted within 14 days of notification
- A signed, written plan demonstrating that the required immunizations for the student will be obtained within the required time frame

Colorado law requires children in school to have an immunization record on file and to have the required immunizations. If your child cannot receive immunizations because of medical, religious or personal reasons, please go to the Colorado Department of Public Health and Environment (CDPHE) Immunization Exemption website at <http://www.colorado.gov/vaccineexemption> for instructions on exemption requirements for school. Forms are also available at all St. Vrain schools.

The following are the required immunizations for entering preschool in the 2018-2019 school year:

- 4 – DTaP
- 3 – POLIO
- 1 – MMR (must have been given after their 1st birthday)
- 3/2/1 – HIB
- 4/3/2 – PNEUMOCOCCAL
- 3 – HEPATITIS B (Last one must be given after 6 months of age)
- 1 – VARICELLA (must have been given after their 1st birthday)

Please give your child's immunization records to the school office.

Students new to St. Vrain Valley Schools must present an immunization record at the time of registration to the school. They will not be able to start classes until an immunization record has been presented to the school.

If you have any questions or concerns, please do not hesitate to contact your school or the district Health Services Office at 303-772-7700.
