

Adolescent **RISE**

with Nicholas Thompson, LCSW

Feb. 27th, 5:00 - 6:30 pm

Virtual Presentation

A fun and informative look at the developmental period of adolescence (ages 10 – 25)

Includes debunking myths about adolescence, understanding the four qualities of adolescence, and learning about the tweenage brain. With this foundation established, ways to better support our kids will be discussed.

- risk-taking
- identity formation
- social reorientation
- emotional intensity
